Town of Ellery Building Requirements

Your attention is called to the fact that new construction and most remodeling will require approval by the Town of Ellery. Ellery has its own building requirements which because of recent amendments in some situations may be more restrictive than ours at Crosswinds. If your project meets Crosswinds standards, please consult with us to see if we can assist you in obtaining any needed variance from Ellery. Please contact the Architectural Committee at hoacrosswinds@gmail.com.
